\$16.73

Work Experience in Related Occupation

\$17.90

Long-term and Moderate on-the-job Training

\$13.87

Short-term on-the-job Training

\$9.59

The above educational and training categories are determined by the Bureau of Labor Statistics (BLS). The BLS determines the Standard Occupational Classification that apply to these 11 categories. The Idaho Research and Analysis Bureau then combines similar training and educational categories in order to form 7 educational and training categories and calculates a new median wage by applying the appropriate weights to each category according to the employment totals of each occupation. Idaho also uses a statistical aging technique to improve the currency of the data. Therefore, the figures disclosed on this document and official BLS figures may slightly differ due to these varying statistical techniques. While 2005 is the release date, data are culled from 2001, 2002, and 2003 surveys. This three year sample is aged to reflect wages and educational levels in 2004.
